

RAFLI PRAMUDYA PUTRANTO

Software Developer / Web Developer

Bekasi City, Indonesia | raflipramudya1110@gmail.com | 0858-9965-9256 | <https://linkedin.com/in/raflipramudyap/> | Portfolio: [Your Portfolio URL]

PROFESSIONAL SUMMARY

Fresh graduate in Informatics (Computer Science Faculty, Universitas Bhayangkara Jakarta Raya, GPA 3.35) with a Software Development focus. Hands-on internship experience designing and building a digital archiving application from planning through end-user deployment, plus independent projects in web development and computer vision. Proficient with PHP, Laravel, and MySQL, with a solid understanding of RESTful APIs and the software development life cycle (SDLC). Eager to contribute as a Software Developer / Web Developer.

INTERNSHIP / WORK EXPERIENCE

Ministry of Culture — National Museum of Indonesia, Data & Information Division Jun 2025 – Dec 2025

- Designed and built a web-based digital archiving application to replace the manual, Google Drive-based storage system used by cultural heritage museums across Indonesia.
- Designed a monthly archive-collection workflow enabling the team to accurately monitor units/parties that had not submitted archives on time.
- Built a retention-status audit feature to identify archives that had or had not yet entered their retention period.
- Engaged in the full application development cycle — UI design, database design, and deployment to end users — while collaborating with cross-functional teams and preparing technical documentation.
- Delivered the project 100% on target together with the team.

PROJECTS

Digital Archiving System with SHA-256 Security Algorithm Final Thesis

- Designed and built a web-based digital archiving application using the Waterfall SDLC method.
- Implemented the SHA-256 algorithm to preserve the integrity and authenticity of digital documents.
- Stack: PHP, Laravel, MySQL.

Modern E-Commerce Platform

- Built an e-commerce platform with a modern interface and a complete transaction flow, from shopping cart to checkout.

Car Rental Booking System with Linear Regression

- Developed a car rental booking system implementing a linear regression algorithm for [fill in: e.g., rental price estimation / demand prediction — adjust to actual function].

Hand Gesture Recognition Game

- Built an interactive game using hand tracking / hand gesture recognition with the OpenCV and MediaPipe libraries.

EDUCATION

B.Sc. in Informatics, Faculty of Computer Science — Universitas Bhayangkara Jakarta Raya 2022 – 2026

Degree: S.Kom | GPA: 3.35 | Focus: Software Development

Senior High School 2019 – 2022

SMAN 2 Babelan kab. Bekasi – Kab Bekasi. West Java, Indonesia

Junior High School 2016 – 2019

SMPN 44 Bekasi Kota Bekasi – Bekasi, West Java, Indonesia

Elementary School 2010 – 2016

SDN Teluk Pucung VI Kota Bekasi – Bekasi, West Java, Indonesia

TECHNICAL SKILLS

- Programming Languages: PHP, JavaScript, Python
- Frameworks & Libraries: Laravel, Bootstrap
- Databases: MySQL
- Version Control: Git, GitHub
- Concepts & Methodologies: RESTful API, SDLC (Waterfall), Agile
- Other: CSS

CERTIFICATIONS

- BNSP Certificate — LSP Software Engineer Scheme
- Cybersecurity Course — Cisco Networking Academy
- Pre-Certification Training (Bimtek LSP) — Faculty of Computer Science, Universitas Bhayangkara Jakarta Raya

SOFT SKILLS

Problem Solving, Analytical Thinking, Team Collaboration, Communication, Adaptability, Continuous Learning, Responsibility.

LANGUAGES

Indonesian (Native), English (Passive — strong reading and listening, speaking currently in development).

OTHER EXPERIENCE

- Community Service Program (KKN) in Mustika Jaya Sub-district, Bekasi Regency — focused on strengthening the role of information technology in regional development.
- Volunteer at music concert events.
